

Grandrib®/Grandrib 3® Plus

Original Grandrib 3® and Grandrib 3® PLUS profiles, with their clean traditional lines, are manufactured from only the best prime quality structural steel available—no seconds ever! Our drive to be the best means that we start with the finest materials and finish it with a premium coating system—Enduracote™ 2000.

Whether your application is new or old, commercial, agricultural or residential, Fabral's panels and paint systems are designed to exceed your requirements and expectations. Make Grandrib 3® or Grandrib 3® PLUS panels your choice for all your metal panel building needs.

Climaguard™

Climaguard's smart design and popular colors add style and beauty to any building. Because Climaguard is made of steel, the beauty is more than skin deep. Metal roofing is made to withstand the elements; it is weather, wind, fire, insect and hail resistant and will protect your investment for years to come.

Snap together panels and pre-punched fastener slots make installation quick and easy. In many cases, Climaguard can be installed over an existing roof saving time and money.

For great looks, maximum performance and installation that's a snap, choose Climaguard. Quite possibly, it's the last roof you will ever need.

Climaguard Profile:

1-1/2" SSR

A classic style metal roof with narrow batten seams. Designed for longevity against rain, snow and wind, 1-1/2" SSR will provide elegance and durability for your new commercial or residential roof.
